

## **PRESS RELEASE**

October 9, 2013

An alliance between Connell Bros. Co. Thailand Ltd. and Siam Fine Chemicals ([www.siamfinechemicals.co.th](http://www.siamfinechemicals.co.th)) has led to the introduction of Viscon into the fuel market in Thailand.

Based upon field testing conducted in Thailand, Siam Fine Chemicals is adding Viscon to its battery of products for the Thailand market. Environmental impacts and engine performance, with Viscon in Biodiesel 5%+Methanol, were key factors for selecting Viscon. Reductions in Particulate Matter/soot and overall engine operations, to include fuel consumption reduction, were criteria considered for Viscon's utilization.

### About Connell Brothers

With more than a century of experience, Connell Brothers has the market knowledge and diverse product line to deliver innovative solutions in the Asia Pacific. Its vast coverage and deep local relationships in Asia provide increased efficiency and maximum return on investment for customers and suppliers.

Connell Brothers is among the largest single-source providers of marketing and distribution services in the Asia Pacific, offering complete supply chain management, transportation, documentation, warehousing, and specialty chemicals and ingredients.

Parties in the Asia Pacific are encouraged to contact:
