To Whom It May Concern:

Re: Viscon Combustion Improver

It is my pleasure to write this letter of recommendation on behalf of the above mentioned product.

I was fortunate enough to be one of the select few to be given the unique opportunity to sample Viscon South Pacific's ground breaking product here in Fiji.

I can safely verify that after having tested the product at least 5 times over the past two months, it has indeed made a considerable difference to the performance of the company issued Toyota Prado that I drive.

Of particular significance was the boost to engine power on steep inclines, something that under normal fuel conditions always proved to be a challenge.

I therefore would highly recommend this product to any discerning motorist to take full advantage of.

If you need any further information please don't hesitate to contact me.

Sincerely,

Yours sincerely,

A handwritten signature in black ink, appearing to be "Geoffrey Smith", written over a dotted line.
